1. Color availability may vary by region.

2. Data from HONOR labs. Based on the lightest version which comes in the black color version. Other versions weigh approximately 230g. Total weight includes battery. Actual weight may vary due to product configurations, manufacturing processes, and measuring methods.

3. HONOR Magic V3 is rated as IPX8 for splash and water resistance under IEC standard 60529 and was tested under controlled laboratory conditions. Splash and water resistance are not permanent conditions and resistance may decrease over time with normal use. Do not charge the phone when it is wet or in moist environments. Refer to the manual for cleaning and drying instructions. Submersion in liquid and the resulting damage is not covered by the warranty. IPX8 rating means that based on certain defined test conditions, the device is protected against harmful ingress of static water at up to 2.5 metres, for up to 30 minutes, meanwhile the temperature difference between water and device is not more than 5 °C.

4. Data from HONOR labs. Based on the slimmest version which comes in the black color version. Other versions thin as 9.3mm. The thickness of the whole device is measured at the thinnest point and does not include the thickness of the camera bump. Product size may vary with its configuration, manufacturing process and measurement methods. Specification details are for reference only.

5. Data from HONOR labs.

6. The diagonal length of the internal screen is 7.92 inches, when measured according to the standard rectangle (the actual viewable area is slightly smaller).

7. The diagonal length of the external screen is 6.43 inches, when measured according to the standard rectangle (the actual viewable area is slightly smaller).

8. The phone is not medical equipment and is not available for treatment.
