Bitte beachten Sie beim Aufbau unbedingt die Montageanleitung für Ihre Möbel. Der fachkundige Aufbau nach Montageanleitung ist zwingende Garantiebedingung. Bei Nichtbeachtung wichtiger Produktinformationen verursachten Folgeschäden wird keine Haftung übernommen. Nur durch eine genaue vertikale und horizontale Ausrichtung des Schrankkörpers ist eine optimale Funktion der Türen, Schubkästen und Sonderausstattungen gewährleistet. Nach dem genauen Ausrichten ist eine Wandmontage aus Sicherheitsgründen, aber auch aus Funktions- und Stabilitätsgründen unbedingt notwendig. Das mitgelieferte Wandbefestigungsmaterial (Dübel, Schrauben) ist ausschließlich für die Befestigung an Beton und/oder festem Mauerwerk geeignet. Bei abweichender Beschaffenheit (z.B. Gipskarton- oder Leichtbauwände) ist ein beispielhaftes Befestigungsmaterial im Fachhandel zu besorgen. Die Demontage Ihrer Möbel erfolgt in umgekehrter Reihenfolge wie die Montage.

Please be absolutely certain to follow the installation instructions when assembling your furniture. Technically competent assembly according to the installation instructions is an essential condition of the guarantee. No liability can be accepted for consequential damages caused by failure to heed important product information. Optimum function of the doors, drawers and special equipment is only ensured by exact vertical and horizontal alignment of the unit carcass. Following precise alignment, wall attachment is absolutely necessary for safety reasons as well as function and stability. The wall fixings included in delivery (dowels and screws) are solely suitable for attaching to concrete and/or solid masonry. In case of different characteristics (e.g. plasterboard or lightweight walls), appropriate fixings must be obtained from the specialist trade. The disassembly is performed in reverse order to the assembly.

Lors du montage de vos meubles, les instructions de montage sont à respecter absolument. Le montage compétent selon les instructions de montage est la condition impérative pour la garantie. Nous déclinons toute responsabilité pour les dommages consécutifs résultant du non-respect des informations importantes sur le produit. Le fonctionnement correct des portes, tiroirs et équipements en option ne peut être garanti que lorsque le corps de l'armoire a été aligné exactement à la verticale et à l'horizontale. Après l'alignement précis il est absolument nécessaire de réaliser le montage mural de l'armoire pour des raisons de sécurité, de bon fonctionnement et de stabilité. Les accessoires de fixation murale compris dans la livraison (chevilles, vis) sont destinés exclusivement à la fixation de l'armoire sur des murs en béton ou des murs solides. En cas de murs de qualité différente (p.ex. mur de plâtre ou mur de construction légère) les éléments de fixation correspondants sont à procurer dans le commerce spécialisé. Le démontage de vos meubles s'effectuera dans l'ordre inverse du montage.

Volg de montage-instructies voor uw meubels. Een vakkundige montage volgens de montagehandleiding is een verplichte garantievoorwaarde. Er wordt geen aansprakelijkheid aanvaard voor gevolgschade die voortvloeit uit het niet naleven van belangrijke productinformatie. Een optimale werking van de deuren, laden en optionele extra's kan alleen worden gegarandeerd als de kast exact verticaal en horizontaal wordt uitgelijnd. Na een exacte uitlijning is wandmontage absoluut noodzakelijk om veiligheidsredenen, maar ook om functionele en stabiliteitsredenen. Het meegeleverde wandmateriaal (deukels, schroeven) is alleen geschikt voor bevestiging aan beton en/of massief metselwerk. In geval van afwijkende omstandigheden (bijv. gipsplaat- of lichtbouw wanden) moet het juiste bevestigingsmateriaal bij een vakhandelara worden aangeschaft. Het demonteren van uw meubelen gaat in omgekeerde volgorde van montage.
