MAD CATZ™

Product Overview

R.A.T. DWS is a triumphant return of the beloved Mad Catz R.A.T. wireless mouse. The additional and adjustable accessories fit different grip styles under every battle situation and are coupled with a dual-mode wireless connection that gives you the most convenient technique in gameplay. Equipped with the hyper-responsive 60M DAKOTA™ mechanical switch and the 16K high-end sensor, R.A.T. DWS achieves the ultimate performance, tracking ability, and longevity which other gaming mice can't compete with.

● Highly-customized accessories
● Mad Catz DAKOTA™ Switch - 2ms response time and 60M clicks
● 2.4G wireless and Bluetooth 5.0 connectivity
● Up to 300 hours of optimized battery life
● 16000 DPI PAW3335DB optical sensor
Choose Your Favorite Accessories as a Weapon

The additional modular accessories make every game become easier. Its adjustable palm rest and swappable pinkie rests can fit into every size of hands and accommodate all grip styles. These two sets of pinkie rests enhance the grip friction and prevent you from long-hour play discomfort.
Choose your favorite accessory and use it as your sharpest weapon to dominate and conquer your enemies!

MAD CATZ™

Mad Catz DAKOTA™ Mechanical Switch

Mad Catz DAKOTA Mechanical Switch utilizes advanced signal-detection technology to eliminate the bouncing and debouncing effect of the sensor spin. This technology accurately registers each signal and allows the spin to perform accurate clicks. Moreover, the technology accelerates the response time to within only 2 milliseconds – which is 60% faster than other mechanical switches!

Dual-Mode Wireless Connection

R.A.T. DWS is equipped with dual-mode wireless - 2.4GHz and Bluetooth connections. The 2.4GHz wireless mode allows you to get access to a rapid 1ms response, also with the compatibility of wider range connection, while the low-latency Bluetooth mode can sustain to up to 300 hours with only one AA battery, which is engineered to optimize power consumption, allowing you to power through long hours of play.

16K Optical Sensor

Developed by the most famous manufacturer, the advanced PAW3335DB optical sensor offers a hyper-resolution of 16000 DPI, thereby providing a greater sensitivity that allows for an acute level of precision for victory.

MAD CATZ™

Barrel Scroll / Precision Aim

The unique barrel scroll design on the R.A.T. DWS makes everything easier for gamers. By sliding the scroll to select different weapons under different situations, you can disrupt every offensive move under tough circumstances.

Nothing is more important than getting a headshot while in intense competition. The specially-designed precision aim button enables you to become the most dangerous sniper on the battlefield.

MAD CATZ™

Up to 14 Programmable Buttons

Every complex command you take would be essential to your team. With the Mad Catz Cyborg Engine, you can set up various advanced hotkeys and macros on each of 14 buttons onto 4 on-board profiles by which every magic spell or melee skill can be mastered in the fight.

Tech Spec

	Model Name	R.A.T. DWS
