Pflegehinweise

Für die Reinigung und Pflege verwenden Sie einen Schwamm oder ein weiches Tuch. Es genügen umweltschonende und sanfte Haushaltsreiniger. Verwenden Sie keinesfalls aggressive oder Lösemittel enthaltende Reinigungsmittel. Benutzen Sie zur Reinigung auf keinen Fall scharfe Gegenstände, Stahlwolle, Chemikalien oder sandhaltige Scheuermittel. Diese führen zu einer Beschädigung der Oberfläche und zu einem Verlust der Garantie. Leichte Kalkbeläge lassen sich mühelos mit etwas Haushaltessig entfernen.

Reinigen Sie die Glasflächen mit einem feuchten Tuch und etwas Glasreiniger und wischen Sie mit einem trockenen Tuch nach.

Wir empfehlen, die Gläser nach dem Duschen mit einem Wischer abzuziehen.

Instructions d'entretien

Pour le nettoyage et l'entretien, utilisez une éponge ou un chiffon doux. Un nettoyant ménager doux et respectueux de l'environnement suffit. N'utilisez jamais de produits de nettoyage agressifs ou contenant des solvants. Pour le nettoyage, n'utilisez jamais d'objets pointus, de laine métallique, de produits chimiques ou de produits à récurer contenant du sable. Ils entraîneront une dégradation de la surface et une privation de la garantie. Les dépôts légers de calcaire peuvent être éliminés sans efforts avec un peu de vinaigre de cuisine.

Nettoyez les surfaces vitrées avec un chiffon humide et un peu de nettoyant à vitres, puis essuyez-les avec un chiffon sec.

Nous recommandons d'essuyer les parois vitrées avec une raclette après chaque douche.

Onderhoudsadvies

Gebruik voor het reinigen en het onderhoud een spons of een zachte doek. Milieuvriendelijke en milde huishoudelijke schoonmaakmiddelen zijn al voldoende. Gebruik in geen geval agressieve of oplosmiddelhoudende schoonmaakmiddelen. Gebruik in geen geval scherpe voorwerpen, staalwol, chemicaliën of zandhoudende schuurmiddelen voor de reiniging. Dit kan leiden tot schade aan het oppervlak en het vervallen van de garantie. Lichte kalkaanslag kunt u zonder problemen met een kleine hoeveelheid huishoudazijn verwijderen.

Reinig de glasplaten met een vochtige doek en een beetje glasreiniger en droog na met een droge doek.

We adviseren om de glazen na het douchen met een wisser af te trekken.
