Liebe Kundin,
lieber Kunde,

(DE)

da Möbel aus Naturholz ständigen Klima- und Feuchtigkeitsschwankungen ausgesetzt sind, können die massiven Fronten ihre Maße ändern (quellen oder schwinden) oder sich verziehen. Die genannten Veränderungen sind bei massiven Holzteilen ein normaler Prozess. Es sind keine Qualitätsmängel und kein Grund für eine Ersatzteilbestellung.

Dieses Schema zeigt Ihnen die Schritte zum Ausrichten der Massivholzfronten.

Chère cliente,
cher client,

(FR)

Comme les meubles en bois naturel sont sans cesse soumis aux variations climatiques et d'humidité, les dimensions des fronts en bois massif peuvent changer (gonfler ou rétrécir) ou bien se rétracter. Les modifications citées sont un processus normal pour les pièces en bois massif. Ce ne sont pas des défauts de qualité et ne justifient pas de commande de pièces de rechange.

Ce schéma vous montre les étapes pour agencer les fronts en bois massif.

Dear customer,

(GB)

As natural wood furniture is exposed to constant climactic changes and fluctuating humidity, the solid wood front panels may change their dimensions (they may expand or shrink) or warp. The aforementioned changes are a normal process typical of solid wood components. This is not indicative of inferior quality and does not constitute a reason for ordering spare parts.

This schematic provides you with the steps for aligning solid wood front panels.

Gentili clienti, dato che i mobili in legno naturale patiscono i continui sbalzi di temperatura e umidità, le massicce parti frontali possono mutare dimensione (gonfiarsi o restringersi) oppure contrarsi. Tali mutamenti sono un fenomeno normale delle parti di legno massiccio. Non rappresentano quindi difetti di lavorazione e non sono motivo d'urgente ordine sostitutivo. Il presente schizzo vi mostra i passi per allineare le parti frontali in legno massiccio.	Beste klant, Beste klant, Aangezien meubelen van natuurhout blootgesteld zijn aan voortdurende klimaat- en vochtigheidsschommelingen, kunnen de massieve voorkanten van afmeting veranderen (zwellen of krimpen) of worden vervormd. De genoemde wijzigingen vormen bij massieve houten stukken een normaal proces. Het zijn geen kwaliteitsgebreken en ze geven geen reden tot bestelling van vervangstukken. Dit schema toont u de stappen voor het justeren van massieve houten voorkanten. A természetes fából készült bútor folyamatosan ki van téve a hőmérséklet- és páratartalom-változásoknak, így a tömör előlapok megváltoztathatják alakjukat (pl. megdagadhatnak vagy vetemedhetnek).
