PERLATORREINIGUNG CLEANING THE AERATOR

60 min

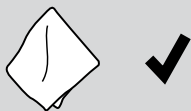

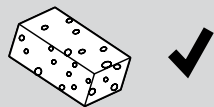

Auch in modernen Leitungssystemen werden im Wasser Sandkörner transportiert. Der SF-100 Grobpartikelfilter schützt die Kartusche und den Perlator einer hochwertigen Schock Armatur vor Beschädigungen.

Even modern plumbing systems transport grains of sand along with the water. The SF-100 coarse particle filter protects the cartridge and aerator in a premium Schock tap against damage.
